

## Unit 3

## 21st Century Skills Project

## Create a "Would you rather" game

**1 Critical thinking**

In groups of five, prepare a set of twelve questions following this pattern:

*Would you rather ... or ...?*

Try to write your questions by using two really interesting situations or two very bad options, which people have to choose from. For example: *Would you rather not use your computer for a month or not eat junk food for a month? Would you rather go to school at Hogwarts or become a Jedi? Would you rather be invisible or be able to fly?*

**2 Communication**

In your group of five, answer your own questions. Keep track of the answers that get more votes and write them down. For example, if three out of five prefer Hogwarts, write it down.

**3 Creativity**

In your group of five, design a board game. Use cardboard or poster paper and prepare your board game with a finishing line and ten spaces to move.

Decorate it and add the things that can make your board game more interesting.

**4 Critical thinking**

Join a different team. Play the game.

- Choose one of the board games.
- Ask one player from the opposite team one of the questions. If the player answers what the majority says, they can roll the dice, flip the coin, or just move one space forward.

**5 Evaluation**

- 1 Which team had some of the best questions?
- 2 Which team designed the best board game?
